League Notes:

- We are seeing the 150% handicap making a difference in the matches. Both Black-n-Gold and The Expendables lost to the new teams. This is what the handicap was supposed to do, give teams like The Leftovers and FNG's an opportunity to compete! In both cases, they shot well and deserved the wins! Good job!

- League finances are looking pretty close to on track. We have about \$400 outstanding in player fees and weekly dues. Our treasurer will be reaching out to those that owe to work on getting things caught up. These fees must be paid or your team will be ineligible for the random draw for the Vegas tournament.

- Bylaw committee: We have 1 volunteer to join Ken and Steve on the bylaw committee – Nieko Isturis. Looking for at least 1 more volunteer.

Tournaments:

Monty is running weekly tournaments at the Viking. Tuesday at 7p.m. is 9-ball and Wednesday at 7p.m. is 8-ball. Normal entry fee is \$10 per player. The weekly tournaments will be for entries to the Capital City Classic which is March 4-8, 2015.

WILLIE'S CORNER

***Week 18: This Week's Matches and Willie's Picks***

Willie was 2 and 0 on the picks for week 17 and is 33 and 7 on the year.

Failed Geometry vs. FNG's

These two teams are fighting to get out of the 8th spot. FNG's won last week so Failed Geometry needs to find a way to get the win. With the match at the Viking, I say Failed Geometry gets the win 118 to 104.

The Expendables vs. Wolfpack

The Expendables had a tough loss with handicap last week. Wolfpack had a rescheduled match. This is a pretty even matchup so scratch scores are going to count. The Expendables win 120 to 115.

4 Tlingits & Pretty Fly 4 a White Guy vs. The Leftovers

The Leftovers will get a handicap in this match so Pretty Fly will have a battle to overcome that handicap. The Leftovers are shooting better and gaining confidence on the table which is awesome to see! The Leftovers win again this week 131 to 125.

Black-n-Gold vs. Lucky Shots

Black-n-Gold was taken down last week by the rookies with the The Leftovers! Lucky Shots should watch out! Black-n-Gold gets back on track with a 131 to 115 win.

ROUNDUP – WEEK 17

The Leftovers (149) vs. Black-n-Gold (115)

Willie said: The Leftovers shot shorthanded last week and lost a close match. BnG will have 2 subs tonight with 2 players in Petersburg for tournament but one has an established 9 HCP and the other hasn't shot league in years. The Leftovers should still get around a 15-18 point per round handicap. This could be a close match depending on who shows up. The Leftovers 123 to 120.

A great start for The Leftovers as Brody Gerke won 10-2, DJ Lawrence won 10-4 and Jim Thayer won 10-2. Samson won the last game of the round 10-7. With handicap, The Leftovers dominated the first round 61 to 25. Black-n-Gold would need to win every game big to get back in the match. They won 4 games in the 2nd and 3rd rounds but The Leftovers scored points to win the match. Brody led the Leftovers with a 30. Mark Rackley had a 30 to lead BnG.

Wolfpack () vs. 4 Tlingits & Pretty Fly 4 a White Guy (Rescheduled)

Willie said: I know one player from Pretty Fly is in Petersburg for tournament this week. Not sure who the sub is. I think Wolfpack will win 120-117. This match was rescheduled.

FNG's (151) vs. The Expendables (136)

Willie said: At least one player from the Expendables is down at the Petersburg tournament as well. FNG's had a big win last week and are looking to keep the streak going. FNG's 130 to 124.

You wouldn't expect the result with the start by The Expendables. They won the first 4 games and the only loss in the round was a 7-10. That's 47 points the 2nd best possible score in a round. But they lost the round 48 to 47 – I love handicap just because it gives all teams a chance any week! The Expendables had the same score in the 2nd round but again lost 51 to 47. FNG's were doing their job and scoring points even in the losses. FNG's got 2 wins in the final round to put the match away. Josh Schuon led FNG's with a 26. Craig Tiedemann and Al Villanueva had 30's for The Expendables.

Off Constantly () vs. Failed Geometry ()

Willie said: Two weeks in a row it has come down to the final game to decide the match for Off Constantly and they have come away victorious. The handicap is working in making these matches closer! Will Off Constantly fight back to win again? Get points Failed Geometry – points are the math that will win the match – you don't have to win every game just make as many balls as you can and you will be in the match. Off Constantly 128 to 120.

No score sheet turned in (or it was turned in late). Remember you can text a picture to Steve!
